4th Annual Flood Prevention Device

PRACTICE INSTALLATION DAY

October 24, 2016

Attention Business Owners and Employees:

Per section 25.38.055 (B)(1) of the Laguna Beach Municipal Code, the last Monday of each October has been designated as Flood Prevention Device Practice Installation Day. This is a voluntary educational emergency preparedness training event encouraged by FEMA. Business owners and employees are requested to practice the installation of the flood prevention devices. Therefore on Monday, October 24, 2016, we ask that you schedule a time to review your Floodproofing Measures Plan with all staff. This should include notification of where the flood prevention devices are stored and installation directions. All employees should be provided a copy of the Floodproofing Measures Plan and have the opportunity to install a flood prevention device at a designated opening.

In the event of a disaster, all property and business owners who have registered through the AlertOC system will receive an emergency alert notification. To register, go to www.alertoc.org.

Please feel free to contact the Code Enforcement Division if you have any questions or need further information regarding the Code, flood prevention devices or the Floodproofing Measures Plan.
