

## MEMORANDUM

**DATE:** October 8, 2010  
**TO:** City Council  
**FROM:** Kenneth Frank, City Manager  
**SUBJECT: FRIDAY UPDATES**

---

**Donation of Beach Wheelchair** -- Pat Demar, founder of the California Beach Wheelchair Program, has donated an additional beach wheelchair to the City of Laguna Beach, Department of Marine Safety, in memory of Joseph Demartines. Pat began this program in 1993 and has donated over 35 beach wheelchairs to California coastal communities. This wheelchair along with one other is available 7 days a week at Marine Safety Headquarters from 9 AM to 5 PM on a first come, first serve basis.

**Flu Shot Clinic** -- A free Flu shot clinic will be held at the Community and Senior Center on Monday, October 11 from 8:30-11:30 am or while supply lasts. This year's multi-dose vaccine includes the H1N1 and anyone 8 years and older is eligible.

**Hedge Height Claim** – This week, Jim Dockstader heard a hedge height claim for property on 10<sup>th</sup> Avenue in South Laguna. The matter was continued until November 10 to see if the parties can reach agreement.

**Urban Water Diversions** – Pollutants commonly found on street surfaces include brake dust, hydrocarbons from tires, fertilizers and pesticides. The Water Quality Department operates and maintains 18 dry-season surface water diversion structures. These devices collect and redirect water, draining from our streets, into the sewer system. Four of the eighteen structures are seasonal installations. The rainfall this week was enough to require all of the diversion structures taken off line. The four seasonal structures will be dismantled for the season. The remaining 14 diversions will be cleaned and placed back into service. Last year the diversion structures prevented over 6 tons of pollutant-laden debris from reaching our shoreline.

**Street Resurfacing Progress** – Roadway slurry sealing in various neighborhoods will resume on Monday and continue for two weeks. A schedule of street resurfacing dates and other project information is available on the City's website at [http://www.lagunabeachcity.net/cityhall/pw/construction\\_projects.asp](http://www.lagunabeachcity.net/cityhall/pw/construction_projects.asp). Follow-up work, such as striping and street sweeping, will continue through the middle of November.
