

MEMORANDUM

DATE: December 10, 2010
TO: City Council
FROM: Kenneth Frank, City Manager
SUBJECT: FRIDAY UPDATES

“Postcards from Laguna” -- This week the temporary murals “Postcards from Laguna” were installed at the Bus Depot between Ocean Avenue and Broadway on the wall of the Sleepy Hollow Medical Center. The murals were created by Bob Bonn, Patrick Moran, Tom Swimm and Mike Tauber. The installation was funded by the lodging establishments and City of Laguna Beach.

DR Application by the City of Laguna Woods - On December 16, the Design Review Board will consider an application by the City of Laguna Woods to construct a 0’-8’ high retaining wall along El Toro Road, near Aliso Creek Road. The wall is proposed in conjunction with a road widening project being constructed by that agency. Staff anticipates that property owners in the nearby California Cove neighborhood may appear to testify regarding their desire for a traffic signal on El Toro Road to facilitate vehicular movement in and out of their neighborhood. A traffic signal is not part of the approved scope of work at this time.

Fire Station No. 2 Rehabilitation Project - The rehabilitation of Fire Station No. 2, located at the corner of Agate Street and Gleneyre Street, is proceeding on schedule and is 50% completed. There are two different contractors working on the site and they have completed the replacement of roughly 90% of the old shingle siding with new insulation and fiber-cement plank siding. Progress continues on the replacement of the exterior soffits beneath the roof overhangs and the renovation of the various sheds on the site. The roofing contractor has installed new insulation and completed the roof sheeting and coating on the apparatus bay and communications building. The project is scheduled to be complete by mid January.
