

MEMORANDUM

DATE: February 24, 2011
TO: City Council
FROM: John Pietig, City Manager

SUBJECT: WEEKLY UPDATES

Skateboarding – The agenda bill regarding adoption of an ordinance to regulate skateboarding will be considered by the City Council at its March 22 meeting.

Design Review Board – The meeting this week will be cancelled due to lack of a quorum. The involved applicants have been notified and staff is working with them to reschedule their items to dates that they can attend.

Bluebird SOCWA Lift Station Upgrade – The City's largest wastewater pumping facility was upgraded yesterday. A great deal of construction activity concluded late Wednesday evening at the station located at the Glenneyre dip. The station was fitted with a new automated transfer switch. The new device replaces an obsolete mechanism that serves to automatically switch between Edison grid power and the station's emergency generator. The upgrade will provide more capabilities for powering the station to accommodate generator maintenance and greatly improve reliability.
