

Plumber Root Bounty Cash Incentive

Private lateral roots grow into the public sewer main, block the pipe, and cause many sewer spills.

Before hydro-jetting/cutting roots from the resident's private sewer lateral, call the **plumber's hotline at (949) 464-6616** for the Public Works & Utilities Wastewater Division to come out and capture the roots and ensure that the sewer main remains clear.

Staff will respond within 30-minutes and the plumber will receive a voucher for **\$50**. Drop the voucher off at 479 Ocean Avenue for reimbursement.

Thank You For Helping Prevent Sewer Spills!
